**VERIFY YOUR DISCLOSURE INFORMATION**

Please carefully read the disclosure statement below. Make any changes to your disclosure and click CONTINUE.

**Disclosure Refusal Statement**

The requirement for financial disclosure from committee members, planners, reviewers, authors, and presenters is a mandatory element in maintaining ACCME accreditation for all organizations that provide continuing medical education (CME) activities. If an individual refuses to disclose, he/she will not be permitted to participate as a planner, committee member, reviewer, author, or presenter.

**Financial Disclosure**

As an ACCME-accredited provider of CME, the RSNA must ensure that the following decisions were made free of the control of a commercial interest: (a) Identification of CME needs, (b) Determination of educational objectives, (c) Selection and presentation of content, (d) Selection of all persons and organizations that will be in a position to control the content of the CME, (e) Selection of educational methods, (f) Evaluation of the activity. The ACCME defines a "commercial interest" as "any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on patients, with the exemption of non-profit or government organizations and non-health care related companies." Further, the provider must be able to show that everyone who is in a position to control the content of an education activity, including committee members, reviewers, planners, authors, and presenters, has disclosed all relevant financial relationships with any commercial interest to the provider. The ACCME defines "relevant financial relationships" as "financial relationships in any amount occurring within the past 12 months that create a conflict of interest." The provider must identify and resolve all identified conflicts of interest prior to an education activity being delivered to the learners.

If you or your spouse/partner have or have had within the previous 12 months such a relationship or affiliation, you must disclose this information. Likewise, disclosure that no relationship(s) exists is also required. The intent of this policy is not to prevent an individual with a financial relationship from participating, however, in accordance with ACCME standards, the RSNA has developed policies and procedures to manage identified conflicts of interest.

The effective date of your current disclosure is **April 10, 2017**.

This disclosure will not be current on December 6, 2018.

**PLEASE UPDATE THIS DISCLOSURE AND CLICK THE UPDATE DISCLOSURE BUTTON.**

Do you or your spouse/partner have or have you had in the previous 12 months a relationship with a proprietary entity producing, marketing, re-selling, or distributing health care goods or services, with the exception of non-profit or government organizations?

Yes  No

If yes, indicate the nature of the relationship(s).
